

## Introducing PassagePoint™ Global v10

### A Visitor Management Solution For Global Business.

PassagePoint Global v10 represents a new generation in visitor management software (VMS). Now even the most demanding customers, worldwide, can enjoy the benefits of this solution offering integrated security, communications, badging, multi-language support, and advanced reporting, all in one package.

Use PassagePoint Global and confusing, cluttered screens are a thing of the past. There's a brand new interface that's easy to use and even

easier to learn. And it's powered by the latest technology for improved speed and stability.

From a single workstation to thousands of users worldwide, PassagePoint Global is an ideal solution. A "small foot-print" makes it perfect for one workstation. An optimized network traffic design ensures high performance with minimal impact to enterprise networks. And, an application server architecture makes it a snap to centrally manage a

VMS deployment over a large company WAN.

PassagePoint Global truly is the one solution for total control.

PassagePoint Global's ClickView

### Only In PassagePoint Global.

- **Control Center:** manages an enterprise-wide visitor system centrally and deploys custom settings based on location
- **Screen Policy:** customizes any entry screen, field labels, or hide/require fields, by user, category or policy
- **ClickView:** displays vital info and action buttons in list view
- **Auto Fill:** speeds up data entry and reduces errors or duplications
- **Mass Notifier:** sends custom notifications to groups for emergency or informational purposes

### More Features. More Control.

- **Fully translated in:** English, Spanish, French, German, & Japanese, out of the box
- Microsoft Outlook calendar integration
- Advanced integration with the major access control manufacturers
- Biometric fingerprint scanner and visitor record locator
- Email notification (with visitor's photo) on visitor sign-in
- **Directory linking/create directory of hosts:** Active Directory & single sign-on
- Return sexual predator match via real time link, including photo and conviction details\*
- Simplified, more intuitive interface makes it fast to learn and fun to use
- **Database Flexibility:** choose from several database options including Oracle, SQL Server, MySQL and PostgreSQL
- **Application Server:** keeps data secure and makes updates a breeze
- **Hardware Setup Wizard:** Adding hardware is made easy with a step-by-step wizard and a smart installer that pre-installs most of the required drivers
- **Badge Printing Policy:** Allows complex printing rules to be set by administrator, making the user's job easier
